Villa Pebbles is a completely energy-neutral home. Most electricity is generated by photovoltaic panels. Photovoltaic solar energy is the best option in this environment, hence the integration of 40 m² photovoltaic panels on the roof. Pebbles is a concept inspired by the undulating shapes of pebbles, polished smooth by the waves, interpreted in refined, contemporary designs. This villa delights and surprises with unexpected perspectives and unique experiences. It is an intimate yet versatile house with a bold, sensual identity. A place where art enhances everyday life and creates a hospitable, familiar place.
