The second phase of these beautiful suites is the next level of luxury apartments located in the Limonero community of Las Colinas Golf, surrounded by forest and with beautiful views over the golf course. This project offers a combination of very modern and contemporary Mediterranean architecture, and is the hybrid concept of an apartment and a villa.

This development offers 16 luxury apartments built to the highest standards, where ground floor apartments and penthouses have their own private swimming pool. Not to mention that the middle floor apartments are all prepared for the installation of a jacuzzi.

All apartments have access to a communal swimming pool, as well as a gym to work out when it suits you best.
